

2004 – 2005 Research Grants & Awards

September is Gynecologic Cancer Awareness Month

**GCF/National Cancer Institute Scholar's Program
&
NEW Ovarian Cancer Research Prize**

Gynecologic Cancer Foundation
230 W. Monroe, Suite 2528
Chicago, IL 60606-4703
Phone: 312.578.1439 Fax: 312.578-9769
E-mail: info@thegcf.org Web site: www.thegcf.org
Hotline: 1.800.444.4441

The Gynecologic Cancer Foundation gratefully acknowledges the Ovarian Cancer Research Fund, Eli Lilly and Company, The Schwid Family, GlaxoSmithKline, Kea Simon, Lee Kaplan Cancer Foundation, The Cade Foundation Susan G. Komen Breast Cancer Foundation, National Cancer Institute, and James Greenfield for their generous support of this years awards.

GCF Tax Id#: 36-379 7707

TO: All Members
Society of Gynecologic Oncologists/Gynecologic Cancer Foundation (GCF)

FROM: Karl C. Podratz, M.D., Ph.D., GCF Chairman
David G. Mutch, M.D., GCF Awards Committee Chair

RE: 2004 Research Grants/Awards to be funded by
Gynecologic Cancer Foundation

Since 1995, GCF has funded over 30 research grants totaling over \$1,500,000. Last year we received over 40 outstanding applications and funded 8. The GCF leadership deems it imperative that additional funding is secured to support this high potential research. Thanks to all of you, the collaborative efforts of our patients, friends and families, GCF has received commitment to fund an additional 10 grants this year.

We are once again pleased to offer the GCF/NCI Scholar's Program and announce a new \$ 7,500 annual prize which be given to an individual who can best demonstrate that they have been able to use their GCF award to improve women's healthcare.

GCF is very grateful to our generous supporters. As you know, it is through important research discoveries that we can improve outlooks for women and our patients. It is important for GCF to increase the number of cervical, endometrial and breast cancer research grants that we offer. If you know of a potential sponsor, please let Karen Carlson at GCF Headquarters know and she will be happy to work with you on securing the additional sources of funds to support critical research projects in the future.

With each step, we move closer to gynecologic health and wellness for all women.

The 2004-2005 Award's Committee:

David Mutch, M.D., Chair
Ilana Cass, M.D.
William Cliby, M.D.
James Dolan, M.D.

Jean Hurteau, M.D.
Elise Kohn, M.D.
David Miller, M.D.
Stephen Rubin, M.D.

Elizabeth Swisher, M.D.
Linda Van Le, M.D.

Application Deadline: October 29, 2004
- 7 **NEW! GCF/Ovarian Cancer Research Grant**
Application Deadline: October 29, 2004
- 8 **NEW! GCF/Cervical Cancer Research Grant**
Application Deadline: October 29, 2004
- 8 **GCF/Susan G. Komen Breast Cancer Foundation Career Development Award**
Application Deadline: October 29, 2004
- 12 **GCF/NCI Scholar's Program in Gynecologic Oncology**
- 14 **NEW! GCF/Margaret Greenfield/Carmel Cohen, M.D. Excellence in Ovarian Cancer Research Prize**
Application Deadline: September 27, 2004
- 16 **GCF/Eli Lilly and Company Award for Outstanding Paper by a Resident or Fellow**
ALL Candidates who qualify for this award will now automatically be included in the evaluation process
- 18 **GCF Research Grant Award Winners**
- 19 **GCF/NCI Fellowship Training Award Winners**

Important Dates

October 29, 2004

All research grants/awards applications must be received in GCF Headquarters by this date to be eligible for the grant period January 1 – December 31, 2005.

January 1, 2005

Notification to award winners will occur by this time.

January 2005

Beginning of the research work.

July 1, 2005

Brief report of the first six months' progress to be submitted to GCF.

December 31, 2005

Final report of the year's research to be submitted to GCF.

Please Note:

Please provide 10 additional copies of your application and attachments when submitting the application.

Please return applications or for further information contact:
Gynecologic Cancer Foundation
Tina Jackson, Foundation Coordinator
230 W. Monroe Suite 2528, Chicago, IL 60606-4703
Phone: 312.578-1439 Fax: 312.578-9769 Hotline: 1.800.444.4441

2004 – 2005 Research Grants and Awards Guidelines

On behalf of the Gynecologic Cancer Foundation (GCF) and the Award's Committee, below you will find the criteria to consider when submitting an application to the GCF Headquarters:

- GCF will accept one (1) application per person per year.
- Only one (1) GCF grant will be awarded per person in order to expand opportunities to other individuals.
- GCF will fund the best project applications with an emphasis toward young investigators. Exceptions to this criteria may be made pending the approval of the Award's Committee.
- Please Note: If any information is missing or directions are not followed appropriately when submitting an application it will be returned with an explanation. The applicant will then need to resubmit the grant before the deadline which is October 29, 2004. If the application is received after the deadline the application will not be considered by the committee.

2004-2005 RESEARCH GRANTS/AWARDS

GCF/Ann Schreiber Ovarian Cancer Research Grant

\$50,000/ (1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Related to ovarian cancer
- Research should be focused around early detection, screening and basic translational research in ovarian cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF gratefully acknowledges the Ovarian Cancer Research Fund for support of this grant

GCF/Eli Lilly and Company Ovarian Cancer Research Grant

\$50,000/ (1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Related to ovarian cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF gratefully acknowledges Eli Lilly and Company for support of this grant.

Answers That Matter.

GCF/Florence and Marshall Schwid Ovarian Cancer Research Grant

\$50,000/ (1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Related to ovarian cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF is very grateful to the Schwid Family for their ongoing generosity in providing funding to support this research grant over the last 7 years.

GCF/GlaxoSmithKline Therapeutic Approaches to Relapsed Ovarian Cancer Grant

\$25,000/ (1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Related to relapsed ovarian cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF gratefully acknowledges GlaxoSmithKline for their support of this grant.

GLAXOSMITHKLINE
Oncology

GCF/Kea Simon Ovarian Cancer Research Grant

\$50,000/ (1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Related to ovarian cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

Thanks to the generosity of Ms. Simon, GCF has earmarked an endowment for ovarian cancer research. This is the third grant that is being awarded as a result of this endowment.

GCF/Lee Kaplan Cancer Foundation Ovarian Cancer Research Grant

\$25,000 (1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Research should be related to early detection and cure for ovarian cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF is very grateful to the Lee Kaplan Cancer Foundation which made funding for this grant possible. This research grant is in memory of Lee Kaplan, who lost her battle to ovarian cancer in 1997.

GCF Molly Cade Ovarian Cancer Research Grant

\$50,000/ (1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Research should be related to early detection focused primarily on treatment modality for women dealing with ovarian cancer and reoccurrences.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF is very grateful to the Cade Foundation and family who made funding for this grant possible. This research grant is in memory of their mother, Molly Cade, who lost her battle to ovarian cancer in 2003.

GCF/Ovarian Cancer Research Grant

\$50,000/(1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Related to ovarian cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting new investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF is very grateful to an anonymous patient donor who made funding for this grant possible. This grant was made in honor of her physician, SGO/GCF member Dr. Ellen Smith, for her wonderful care and compassion.

GCF Cervical Cancer Research Grant

\$25,000/(1) Year Award

- Principal investigators who apply for this grant must be a Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- Related to etiology, treatment, and diagnosis for women with cervical cancer.
- Supports the best project application.
- Leaves judgment related to the quality and importance of the work up to the GCF peer review process.
- In the evaluation process GCF considers the originality, significance, appropriateness, and probability of the proposed research project. The GCF is committed to assisting young investigators who have not previously had independent funding to achieve peer-reviewed awards.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS.**
- (Indirect costs include but are not limited to administrative cost of the university, usual criteria established for grant overhead or other costs such as laboratory space.) **Grant monies must be devoted to the active research project.**
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF is very grateful to an anonymous patient donor who made funding for this grant possible. This grant was made in honor of her physician, SGO/GCF member Dr. Ellen Smith, for her wonderful care and compassion.

GCF/Susan G. Komen Breast Cancer Foundation Career Development Award

\$50,000/Per Year for 2 Years Award

- Principal investigators who apply for this grant must be Full, Candidate or Associate member of the Society of Gynecologic Oncologists (SGO).
- This two-year award is intended for junior faculty at the Assistant Professor level, who are conducting cancer research at an academic institution.
- This award promotes important transitional support for direct research expenses as researchers move from the ranks of young investigator to faculty senior status.
- Quality research in studies relating to issues affecting women with breast cancer or at risk for breast cancer. These projects could include, but are not limited to genetics, epidemiological studies, ovarian cancer screening, early detection, and prevention of clinical trials with SERMS, molecular mechanisms of action of SERMS, etc.
- The award is not intended to replace or supplement the salary of the awardee.
- GCF will announce the grant and choose a recipient through a peer-review process.
- **GCF GRANTS DO NOT PAY FOR INDIRECT COSTS** (Indirect costs include, but are not limited to, administrative costs of the university, usual criteria established for grant overhead or other costs such as laboratory space.)
- TRAVEL TO PRESENT DATA RESULTING FROM THIS SUPPORT IS PERMISSIBLE.

GCF gratefully acknowledges Susan G. Komen Breast Cancer Foundation for their support of this grant.

GCF/NATIONAL CANCER INSTITUTE SCHOLAR'S PROGRAM

The Gynecologic Cancer Foundation (GCF) is pleased to announce a program jointly sponsored with the National Cancer Institute (NCI) directed to facilitate additional investigative training for clinician-scientists with a dedicated interest in gynecologic malignancies. The research will be performed at the NCI Bethesda and satellite campuses in Maryland under the direction of an NCI mentor. At the conclusion of the fellowship, the fellow will be expected to transition to a position at an extramural institution.

The purpose of the program is to support the development of outstanding clinician research scientists. This mechanism provides specialized study for clinically trained professionals who are committed to a career in research and have the potential to develop into independent investigators. The award supports a 2-year period of supervised research experience that integrates didactic studies with laboratory or clinically based research. The experience is intended to be of both intrinsic research importance and be a vehicle for learning the methodology, theories, and conceptualizations necessary for a well-trained independent researcher.

Applicants must be Full, Associate, Candidate, or applicants for Candidate Membership of the Society of Gynecologic Oncologists (SGO) or a Fellow-In-Training in Gynecologic Oncology. The candidate should have a commitment from an institution allowing the candidate to spend a minimum of 75 percent of full time professional effort for 1-2 years following completion of conducting research and research career development following completion of the two-year award. *Those participants who have institutional support at conclusion of this program will be deemed to have a stronger application than those who do not.*

Former principal investigators of NIH research project grants (R01), Career Development Awards (K series), sub-projects of program projects (P01), or center grants (P50), or the equivalent, are not eligible. Applicants are encouraged to apply for independent research grant support during the period of this award.

MECHANISM OF SUPPORT

Planning, direction, and execution of the program will be the responsibility of the candidate and his/her NCI mentor on behalf of the applicant institution. The project period will be 2 years. Awards are not renewable.

RESEARCH OBJECTIVES

A. Environment: The institution must have a well-established research and clinical career development program and a qualified faculty in clinical and basic research to serve as mentor(s). The institution must be able to demonstrate a commitment to the development of the candidate as a productive, independent investigator. And, the candidate, mentor, and institution must be able to describe a multi-disciplinary career development program that will maximize the use of relevant research and educational resources.

B. Program: The Award provides 2 consecutive 12-month appointments. Full-time professional effort must be devoted

to the program and related clinical and teaching pursuits consonant with the objectives of the award. The scientific component must develop knowledge and research skills in areas relevant to the career goals of the candidate. Near the conclusion of their fellowship, fellows will be expected to present their research as part of the seminar series for the Gynecologic Malignancies Faculty at the NCI.

C. Mentor(s): The recipient must receive appropriate mentoring throughout the 2-year program. A web site will be created containing information on all potential mentors at the NCI to facilitate matching of candidates to mentors. This will be provided through the Gynecologic Malignancies Faculty web page.

D. Allowable Costs:

Each of the sponsoring organizations (GCF and NCI) will award salary of \$ 50,000 per year per organization for a total of \$ 100,000 per year per fellow.

1. **Salary Support:** GCF and NCI will each provide salary; totaling \$100,000 annually for the fellow.
2. **Policy Relative to Student Loans:** Fellows in this program should be eligible for the loan repayment program through the NIH extramural programs. Details concerning the application process and eligibility requirements can be found at <http://www.lrp.nih.gov>. The academic institution may supplement the contribution of GCF and NIH up to a level that is consistent with the institution's salary scale; however, supplementation may not be from Federal funds unless specifically authorized by the Federal program from which such funds are derived. In no case may PHS funds be used for salary supplementation. Institutional supplementation of salary must not require extra duties or responsibilities that would interfere with the purpose of this program.
3. **Research Development Support:** The NCI will provide services and supplies in accordance with standard policies; and GCF will provide support to cover travel to research meetings or training up to \$2,500 per awardee per year.
4. **Facilities and Administrative (F&A) Costs:** Provided by NCI.

Applications are to be submitted on the application form included in the research booklet. Applications are available by e-mailing GCF Headquarters at info@thegcf.org or by calling GCF Headquarters at (312) 578-1439. Copies of the application may also be printed from the GCF Web site at the following address: <http://www.thegcf.org/research>.

Submit a signed, typewritten original of the application and five photocopies, in one package to:
Gynecologic Cancer Foundation
Attention: Tina Jackson
230 W. Monroe Suite 2528
Chicago, IL 60606-4703
(312) 578-1439

Applications will be reviewed for completeness by the GCF and NCI. An appropriate GCF/NCI peer review group will evaluate applications that are complete and responsive to the program announcement

It is anticipated that up to two jointly sponsored awards will be made each year and the name(s) of the awardee(s) will be announced by GCF.

NEW

Margaret Greenfield/Carmel Cohen, M.D.
“Excellence in Ovarian Cancer Research Prize”

Only past GCF award winners qualify for this prize and should apply by filling out the application form which is downloadable on the GCF web site at www.thegcf.org. **The deadline for applications is September 27, 2004.**

The GCF Award’s Committee will determine a winner based on previously stated criteria. The first prize will be announced at the 2005 SGO Annual Meeting on Women’s Cancer in Miami, Florida.

GCF is very grateful to Mr. James Greenfield for his generous support of this new innovative prize.

2005 GCF/ELI LILLY AND COMPANY AWARD FOR THE OUTSTANDING PAPER BY A FELLOW OR RESIDENT

IMPORTANT NOTE: ALL CANDIDATES WHO QUALIFY FOR THIS AWARD BASED ON ABOVE CRITERIA WILL AUTOMATICALLY BE INCLUDED IN THE EVALUATION PROCESS.

ELIGIBILITY

Candidates for this award must have performed the research during residency in obstetrics and gynecology or during their fellowship training in gynecologic oncology and also must be a trainee at the time the abstract is submitted. The abstract must have been accepted by the Program Committee for either oral or poster presentation. The candidate must be the sole or first author of the manuscript. The work must be a report of clinical or basic research. Manuscripts may not be a review of work performed by others. Papers already published are not eligible for consideration. A paper may be submitted for publication after the abstract is sent to the Program Committee, but may not appear in print prior to the SGO 2005 Annual Meeting on Women's Cancer. American applicants must be enrolled in an accredited U.S. residency program in obstetrics and gynecology or an American Board of Obstetricians and Gynecologists approved fellowship program in gynecologic oncology. Foreign applicants must be enrolled in a similar program.

SELECTION PROCESS

All Fellows – In – Training and Residents should submit abstracts to the Program Committee in the usual fashion. A completed GCF Award application must accompany the abstract. As soon as the Program Committee has selected its program, all qualified abstracts for this award will be submitted to the GCF Awards Committee for review.

ALL CANDIDATES WHO QUALIFY FOR THIS AWARD BASED ON ABOVE

CRITERIA WILL AUTOMATICALLY BE INCLUDED IN THE EVALUATION PROCESS.

Each accepted applicant must submit a complete manuscript within the time frame stipulated by the Program Committee. Manuscripts will be distributed to the GCF Awards Committee for review prior to the meeting and a scoring sheet will be completed. The scoring will be based on study design, originality, scientific merit, importance to the field and presentation. During the 2005 SGO Annual Meeting on Women's Cancer, the GCF Awards Committee will meet and select the outstanding paper.

AWARD

The 2005 GCF/Eli Lilly and Company Award for the Outstanding Paper by a Resident or Fellow will be announced following the SGO 36th Annual Meeting and the winner will receive \$1,500.

***GCF GRATEFULLY ACKNOWLEDGES ELI
LILLY AND COMPANY FOR THEIR SUPPORT
OF THIS AWARD THROUGH AN
EDUCATIONAL GRANT***

GCF Grants/Awards History Report

YEAR	AWARD	TITLE	RECIPIENT	INSTIUTION	AMOUNT
1995-1996	Karin Smith/GCF Research Project in Ovarian Cancer	"Characterization of a Novel Ovarian Inhibitory Substance"	Beth Karlan, M.D.	Cedars -Sinai Medical Center, Los Angeles, CA	\$50,000
1995-1996	GCF Research Project in Surgery	"Adhesion Formaton After Transperitoneal Laparoscopic Pelvic Lymphadenectomy vs. Extraperitoneal Laparotomy"	Jeffrey Fowler, M.D.	Ohio State Columbus, OH	\$50,000
1996-1997	Karin Smith/GCF Research Project in Ovarian Cancer	"Adenovirus-Mediated Gene Therapy of Human Ovarian Cancer"	Stephen Rubin, M.D.	Univ. Of Pennsylvania Philadelphia, PA	\$50,000
1996-1997	GCF Research Project in Surgery	"Comparative Study of Crystalloid vs. Albumin Replacement in Patients with Ovarian Cancer and Ascites"	T. Scott Jennings, M.D.	Charleston, SC	\$50,000
1997-1998	Karin Smith/GCF Research Project in Ovarian Cancer	"Molecular-Epidemiology of Ovarian Cancer"	Andrew Berchuck, M.D.	Duke University Durham, NC	\$50,000
1997-1998	Florence & Marshall Schwid/GCF Research Project in Ovarian Cancer	"Modulation of BRCA1 Expression in Ovarian Cancer: Screening Ramifications"	Richard Buller, M.D.	Univ. of Iowa Iowa City, IA	\$50,000
1997-1998	Eva Metzger/GCF Research Project in Ovarian Cancer	"Regulation of Ovarian Cancer Cell Growth with Cyclin Dependent Kinase Inhibitor Gene Therapy"	Jean A. Hurteau, M.D.	University Hospital Indianapolis, IN	\$50,000
1997-1998	GCF Research Grant in Gynecologic Cancer	"Evaluation of the Effect and Mechanism of Action of Adenovirus-Mediated Tumor Suppressor Gene Therapy of Ovarian Cancer"	Judith Wolf, M.D.	M.D. Anderson Cancer Houston, TX	\$25,000
1998-1999	Florence & Marshall Schwid/GCF Research Project in Ovarian Cancer	"A Molecular Fingerprint of Angiogenesis in Epithelial Ovarian Cancer"	Pamela Paley, M.D.	University of Washington Seattle, WA	\$50,000
1999-2000	Florence & Marshall Schwid/GCF Research Project in Ovarian Cancer	"A Dendritic Cell-based Vaccine Strategy for Ovarian Carcinoma Using the Novel Ovarian Tumor Marker Mesothelin"	Terri B. Pustilnik, M.D.	University of Alabama Birmingham, AL	\$50,000
2000-2001	Florence & Marshall Schwid/GCF Research Project in Ovarian Cancer	"Evaluation of MKK4/SEK1 Metastasis Suppressor Gene in Ovarian Carcinoma"	S. Diane Yamada, M.D.	University of Chicago Chicago, IL	\$50,000
2000-2001	GCF/Bristol-Myers Squibb Oncology Young Investigator Award	"Impact of Cytotoxic Chemotherapy on the Development of Immune Therapy Strategies in Epitelial Ovarian Cancer"	George Coukos, M.D., Ph.D.	University of Pennsylvania Philadelphia, PA	\$50,000
2000-2001	GCF/NOCC Ovarian Cancer Research Grant	"Role of FAK expression in invasion and Cisplatin resistance in ovarian cancer"	Anil K. Sood, M.D.	University of Iowa Iowa City, IA	\$50,000
2000-2002	GCF/Susan G. Komen Breast Cancer Foundation Career Development Award	"Effect of p53 mutation status on cisplatin chemosensitivity in carcinomas with BRCA1 mutations"	Ilana Cass, M.D.	Cedars Sinai Medical Ctr. Los Angeles, CA	\$50,000 for 2 yrs.
2001-2002	Florence & Marshall Schwid/GCF Research Project in Ovarian Cancer	"Impact of Epigenetic Modulation on DNA Repair Genes on Chemoresistance and Survival in Ovarian Cancer"	Elizabeth M. Swisher, MD	Univ. of Washington Seattle, WA	\$50,000
2001-2002	GCF/Bristol-Myers Squibb Oncology Young Investigator Award	"Transduced Dendritic Cell Therapy for Cervical Cancer-Alternative Vector Targeting and Conjugate Strategies"	Warner K. Huh, MD	University of Alabama Birmingham, AL	\$50,000
2001-2002	GCF/NOCC Ovarian Cancer Research Grant	"Validation of an Avian Ovarian Cancer Model	William A. Cliby, MD	Mayo Clinic Rochester, MN	\$50,000
2002-2003	Florence & Marshall Schwid/GCF Research Project in Ovarian Cancer	"Immuno Regulatory Function of Endothelium in Ovarian Carcinoma"	Thomas Randall, MD	Pennsylvania Hospital Philadelphia, PA	\$50,000
2002-2003	GCF/Ann Schreiber Award	"Acetaminophen for the primary prevention of ovarian cancer"	Laura Havrilesky, MD	Duke University Durham, NC	\$50,000
2002-2003	GCF/Susan G. Komen Breast Cancer Foundation Career Dev. Aard	"Resveratrol Induced Apoptosis and Augophagocytosis in Ovarian and Breast Cancer"	J. Rebecca Liu, MD	Univ. of Michigan Ann Arbor, MI	\$50,000 for 2 yrs.

GCF Grants/Awards History Report

YEAR	AWARD	TITLE	RECIPIENT	INSTIUTION	AMOUNT
2002-2003	GCF/Ovarian Cancer Research Award	“Active immunization with VEGF peptides for the treatment and prevention of ovarian cancer”	David Cohn, MD	Ohio State University Columbus, OH	\$50,000
2002-2003	GCF/Ovarian Cancer Research Award	“Transcriptional Targeted Antiangiogenesis Gene Therapy for Ovarian Carcinoma”	Sharmila Makhija, MD	Univ. of Alabama Birmingham, AL	\$50,000
2003-2004	GCF/Ann Schreiber Award	“Ex Vivo Expansion and Identification of Ovarian Cancer Cytotoxic T Lymphocytes”	Robert Giuntoli, II, MD	Johns Hopkins Medicine Baltimore, MD	\$50,000
2003-2004	GCF/Cytoc Corporation Gyn. Can Award	“PDIP38, a novel protein marker for early HPV infection”	Eugene Toy, MD	University of Rochester Rochester, NY	\$50,000
2003-2004	GCF/Eli Lilly and Company Ovarian Cancer Award	“Dissecting the role of AIB-1 in ovarian epithelial invasiveness”	Matthew Anderson, MD	MD Anderson Cancer Ctr. Houston, TX	\$25,000
2003-2004	GCF/Florence & Marshall Schwid Ovarian Cancer Award	“Treatment of Terminal Metastatic Ovarian Cancer by Therapeutic siRNAs”	Cheryl Saenz, MD	Univ. of California San Diego	\$50,000
2003-2004	GCF/GlaxoSmithKline Ovarian Cancer Award	“Testing the Significance of Cables Expression in Identifications and Genes of Endometrial Cancer”	Linda Duska, MD	Massachusetts General Hospital Boston, MA	\$25,000
2003-2004	GCF/Kea Simon Ovarian Cancer Award	“Melanoma differentiation associated-7 (mda-7) gene: A novel multifunctional anti-tumor agent for ovarian cancer”	Ronald Alvarez, MD	Univ. of Alabama Birmingham, AL	\$50,000
2003-2004	GCF/Kea Simon Ovarian Cancer Award	“The Role of ECA1 in Ovarian Carcinogenesis and Potential Utility as a Serum Marker”	Robert Burger, MD	UCI Medical Center Orange, CA	\$25,000
2003-2004	GCF/Ovarian Cancer Research Grant	“Modification of Ovarian Tumor to Function as Primary Antigen Presenting Cells for Allogeneic Vaccination”	Christina Chu, MD	Univ. of Pennsylvania Philadelphia, PA	\$50,000

GCF/NCI FELLOWS

YEAR	AWARD	TITLE	RECIPIENT	AMOUNT
1995 -1999	GCF/NCI Research Training Fellowship	“Prevention of Late Effect Radiation Fibrosis by Cytokine Inhibition”	Terri Cornelison, M.D.	\$100,000
1999 – 2003	GCF/NCI Research Training Fellowship	“Gene Expression Profiling in Ovarian Neoplasms”	Monica Brown, M.D.	\$100,000
2000 – 2004	GCF/NCI Research Training Fellowship	“The development and characterization of novel retinoids for the chemoprevention and treatment of ovarian cancer”	Ginger Gardner, M.D.	\$100,000
2000 – 2004	GCF/NCI Research Training Fellowship	“Use of cDNA microarrays in evaluation of ovarian cancer	Amir Jazaeri, M.D.	\$100,000
2001 – 2005	GCF/NCI Research Training Fellowship	“Gene Expressions Profile of Ovarian Cancer Histologic Suptypes”	Kristin Zorn, M.D.	\$100,000

NOTE: The salary of each fellow has been matched equally by NCI.

***RECIPIENTS OF GCF AWARDS FOR OUTSTANDING
PAPER BY A RESIDENT OR FELLOW***

YEAR	RECIPIENT
1994	Jeffrey F. Hines, M.D.
1995	Jeffrey Skilling, M.D.
1996	Jeffrey Skilling, M.D.
1997	Cheryl Bailey, M.D.
1998	J. Rebecca Liu, M.D.
1999	David Kushner, M.D.
2000	Douglas Levine, M.D.
2001	Warner K. Huh, M.D.
2002	Annie Yessaian, M.D.
2003	Nicholas Lambrou, M.D.
2003	Kristin Zorn, M.D.
2004	Rahel Ghebre, M.D.
